## OBJECTIVE

---

A passionate technology enthusiast and fresher with hands-on knowledge of Python, Java, C++, and SQL, combined with a strong interest in logical thinking and efficient problem-solving. Comfortable balancing structured coding practices with creative “vibe coding” approaches to build clean, practical solutions. Alongside technical skills, I bring adaptability, continuous learning mindset, and effective communication abilities, enabling me to contribute effectively in collaborative and fast-paced environments..

## EDUCATION

---

|                                  |                   |
|----------------------------------|-------------------|
| <b>Bishop Heber College</b>      | <b>2023 -2026</b> |
| Bachelor of Computer Application | Trichy, India     |
| <b>CGPA: 8.80</b>                |                   |

|                                          |                    |
|------------------------------------------|--------------------|
| <b>Trinity Academy Senior Sec School</b> | <b>2019 - 2023</b> |
| <b>Percentage: 75%</b>                   | Tiruvarur, India   |

## INTERNSHIP EXPERIENCE

---

|                     |                                  |
|---------------------|----------------------------------|
| <b>DATA ANALYST</b> | <b>SEPTEMEBER – OCTOBER 2025</b> |
|---------------------|----------------------------------|

Developed proficiency in Microsoft Excel, SQL, Power BI, and Python, with a strong focus on data querying, dashboard creation, and analytical problem-solving. This experience enhanced my understanding of complete data workflows and strengthened my ability to apply analytical tools in real-world scenarios.

## PROJECTS

---

### IOT-ENABLED MODULAR HYDROPONICS WITH AUTOMATION

- Developed an ESP32-based IoT hydroponic system to monitor and control temperature, humidity, water level, and nutrient concentration (TDS) in real time.
- Integrated cloud-based IoT connectivity for remote monitoring, alerts, and automated control of pumps, lighting, and ventilation to improve resource efficiency.
- Designed a scalable modular architecture suitable for home, educational, and small-scale commercial hydroponic applications.

### LIBRARY MANAGEMENT SYSTEM USING DJANGO

- Designed and developed a responsive web-based Library Management System using Django to digitize library operations and improve user accessibility.
- Implemented features including online book catalog search, real-time availability status, announcements for new arrivals and events, an event calendar, and a contact module for user–staff communication.
- Established the library’s first online presence, enhancing user engagement, reducing information gaps, and enabling efficient resource access.

## CERTIFICATIONS

---

- **HP LIFE – AI for Business Professional:**  
Learned how AI can be applied to improve business processes, decision-making, and operational efficiency.
- **Google for Education – Gemini Certified Student:**  
Gained hands-on experience using Gemini for AI-assisted learning, productivity, and problem-solving.
- **Deloitte – Cyber Job Simulation:**  
Completed practical cybersecurity tasks focused on risk assessment, threat analysis, and security best practices.
- **Udemy – PowerPoint Business Presentation with ChatGPT & Generative AI:**  
Created professional business presentations using generative AI for content structuring and design.
- **Udemy – The Complete Full-Stack Web Development Bootcamp:**  
Built responsive full-stack web applications covering front-end, back-end, and database fundamentals.
- **Infosys – Basics of Python:**  
Developed a strong foundation in Python programming and logical problem-solving.
- **Great Learning – Java Programming:**  
Gained core knowledge of Java programming with emphasis on OOP concepts and practical coding.

## TECHNICAL SKILLS

---

- Programming Languages: C, C++, Java, Python, VB.Net
- Database Management: MySQL
- Tools & Frameworks: VS Code, Microsoft Visual Studio
- Operating Systems: Windows, Linux
- Others: Problem-solving, Debugging, Technical Documentation

## SOFT SKILLS

---

- Problem-Solving
- Team Collaboration
- Time Management
- Communication Skills

## SOFT SKILLS

---

- English
- Tamil
- Hindi
